

CANSO Latin America and Caribbean Conference 2017

4-6 December 2017

100+ delegates

43% senior management

50% ANSPs

22 Countries

The CANSO Latin America and Caribbean Conference 2017 will explore the operational and safety considerations of continued growth in the region. Focussing on the implementation of Aviation System Block Upgrades (ASBUs), data sharing and air traffic flow management, participants will explore the latest best practice in air navigation service provision.

Sponsoring

A must attend event to bring you face-to-face with high level decision makers from across the region, please see the sponsorship opportunities for CANSO Latin America and Caribbean Conference 2017.

Airspace

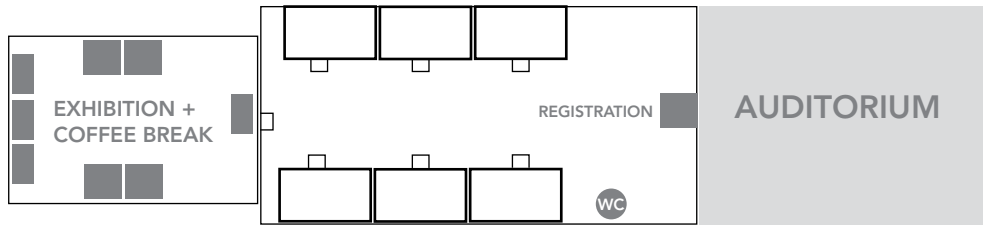

In our Q4 Issue for 2017, *Airspace* discusses the latest training techniques and efforts to ensure the ATM industry remains an attractive career path. As weather forecasts improve, how can ANSPs incorporate this knowledge into flexible flight paths and other procedures? We will address the latest developments in space-based surveillance and include a leading CEO interview. This issue will be sent to over 6,500 subscribers and will be distributed to delegates at the CANSO Latin America and Caribbean Conference 2017 in Brazil.
